This is a course that meets the standards of the International Federation of Dental Anaesthesiology Societies. The first half of the day will be lecture style with the afternoon being practical hands-on. Two of the following presenters will run each course.

**Dr Greg Mahoney**
BDSc, GradDipClinDent, MSc(Dent), PhD, FADI, FPFA and President of ASDA. Dr Mahoney has a full time private practice dealing with the anxious patient and has been involved in sedation research for the past 14 years.

**Dr Michael Walker**
BDS, FPFA
Past President of ASDA and Examiner for the Conscious Sedation Diploma. Dr Walker runs one of the largest sedation practices in the Sydney region, where nitrous oxide inhalation sedation forms an integral part of that practice.

**Dr Angelo Preketes**
BDS, GradDipClinDent (Oral Implants), GradDip-ClinDent (Conscious Sedation & Pain Control)
Dr Preketes obtained Graduate Diplomas in Clinical Dentistry at The University of Sydney in the areas of Oral Implants, and Conscious Sedation and Pain Control. He runs his own practice in Sydney and is a Visiting Dental Officer at the IV Sedation Department of Westmead Hospital.

**Dr Robert Turnbull**
Dr Robert Turnbull has a practice dedicated to providing visiting dental sedation services to many dental surgeries where daily he manages the most fearful patients. He has regularly used Nitrous Oxide Sedation for nearly 20 years to facilitate pain and anxiety relief and is a firm believer in its safety and benefits, and how to maximise this technique-sensitive treatment option. Robert is active in training and teaching, with roles in the University of Sydney, Charles Sturt University and as a councillor and lecturer for the Australian Society of Dental Anaesthesia.

**Presentations include:**
- 10 February 2017
- 5 May 2017
- 11 August 2017
- 17 November 2017

Please select event date:

- [ ] 10 February 2017
- [ ] 5 May 2017
- [ ] 11 August 2017
- [ ] 17 November 2017

**Presentation details:**
Date: Please select from options below
Time: Registration from: 8:30am
Lectures from: 9:00am-5:00pm
